B.Sc. in Software and Information Systems Engineering at Ben Gurion University.

I am a social activist in the "she codes" organization, and participate in the program in collaboration with the Prime Minister's Office for future engineers who deal with social change.

I have strong work ethic, high self-learning abilities and experience in excellent teamwork in school and at work.

Skills:

Programming Languages and WEB:

Node.js ,Java , JavaScript, Vue.js, CSS, Python.

DB: SQL/NoSQL, MongoDB.

Software and Operating Systems:

IntelliJ IDEA, PyCharm, Jupyter, Eclipse, Visual Studio.

General: Git, Linux, XML, JSON, OOP, Design Patterns.

Projects:

- ★ [Recipes Website](#): Designed and developed a recipes website - **full-stack** project, including **REST API** using SwaggerHub and Postman. Back-end written in **Node.js** and used **Azure SQL DB**, front-end in **Vue.js**.
- ★ [Search Engine](#): Developed a search engine in **Java**, which given a document repository and query returns the 50 most relevant documents for that query. Implemented using TF-IDF, Word2Vec and Porter Stemmer algorithms.

Education:
